

NEW JERSEY DEPARTMENT OF EDUCATION

OFFICE OF TITLE I

2015-2016 TITLE I SCHOOLWIDE PLAN*

*This plan is only for Title I schoolwide programs that are not identified as a Priority or Focus Schools.

DISTRICT INFORMATION	SCHOOL INFORMATION
District: ATLANTIC CITY PUBLIC SCHOOL DISTRICT	School: Richmond Avenue School
Chief School Administrator: DONNA HAYE	Address: 4115 Ventnor Avenue Atlantic City, New Jersey 08401
Chief School Administrator's E-mail: dhaye@acboe.org	Grade Levels: Pre-Kindergarten 3 through 8 th Grade
Title I Contact: Mr. Joseph Beaman	Principal: Shelley Williams
Title I Contact E-mail: jbeaman@acboe.org	Principal's E-mail: shwilliams@acboe.org
Title I Contact Phone Number: 609-343-7200 ext. 5004	Principal's Phone Number: 609-343-7250 EXT. 7159

Principal's Certification

The following certification must be made by the principal of the school. Note: Signatures must be kept on file at the school.

☐ I certify that I have been included in consultations related to the priority needs of my school and participated in the completion of Schoolwide Plan. I have been an active member of the planning committee and provided input to the school needs assessment and the selection of priority problems. I concur with the information presented herein, including the identification of programs and activities that are funded by Title I, Part A.

Principal's Name

Principal's Signature

Date

Critical Overview Elements

- The School had _____9_____ (number) of stakeholder engagement meetings.
- State/local funds comprised _____% of the school's budget in 2014-2015.
- State/local funds will comprise _____\$ of the school's budget in 2015-2016.
- Title I funded programs/interventions/strategies/activities in 2015-2016 include the following:

Item	Related to Priority Problem #	Related to Reform Strategy	Budget Line Item (s)	Approximate Cost
Summer School_July 2015	1,2,3,4	All		
Title I After School Program (October to April)	1,2,4	All		
Professional Development (Data Analysis)	1,2,3	All		
Parent Center Workshops	1,2,3	All		
Supplement Educational Services	1,2,4	All		
Saturday Stem School	1,2,3,4	All		

ESEA §1114(b)(2)(B)(ii): “The comprehensive plan shall be . . . - developed with the involvement of parents and other members of the community to be served and individuals who will carry out such plan, including teachers, principals, and administrators (including administrators of programs described in other parts of this title), and, if appropriate, pupil services personnel, technical assistance providers, school staff, and, if the plan relates to a secondary school, students from such school;”

Stakeholder/Schoolwide Committee

Select committee members to develop the Schoolwide Plan.

Note: For continuity, some representatives from this needs assessment stakeholder committee should be included in the stakeholder group planning committee. Identify the stakeholders who participated in the needs assessment and/or development of the plan. Signatures should be kept on file in the school office for review. Print a copy of this page to obtain signatures. *Add lines as necessary.

Stakeholder/Schoolwide Committee Meetings

The purpose of this committee is to organize and oversee the needs assessment process; lead the development of the schoolwide plan; and conduct or oversee the program's annual evaluation.

Stakeholder/Schoolwide Committee meetings should be held at different times of the year (e.g., fall and spring). List the dates of the meetings when the Stakeholder/Schoolwide Committee discussed the needs assessment, Schoolwide Plan development, and the program evaluation below.

Date	Location	Topic	Agenda on File		Minutes on File	
			Yes	No	Yes	No
September 19, 2014	Media Center	School's Vision and Mission, Compact Letter and Parent Involvement Policy	X		X	
October 9, 2014	Atlantic City Boat House	District Leadership/ Leadership Role/ Establishing a Leadership Team	X		X	
October 15, 2014	Principal's Conference Room	Data Cluster/M&E	X		X

June 8, 2015	Atlantic City Boat House	District Leadership	X		X	

School's Mission

A collective vision that reflects the intents and purposes of schoolwide programs will capture the school's response to some or all of these important questions:

- What is our intended purpose? The intended purpose is for all stakeholders to participate in creating a shared vision, which promotes and fosters improving the performance of students and the effectiveness of the school.
- What are our expectations for students? Our expectations for students are as follows:
 - Come to school on time
 - Be prepared for school
 - Think ahead to be sure one is prepared for class and items that are needed for the day are ready
 - Inform parents of materials needed for school
 - Get enough rest
 - Do the assigned work
 - Plan ahead so one has sufficient time to complete work thoughtfully
 - Establish a routine time and quiet place for completing assignments
 - Make good use of every moment while in class and doing assignments
 - Work hard to learn to focus and concentrate on ones work. The amount of effort one puts forth will directly impact ones learning, grades, confidence, and future.
 - Respect yourself and others
 - Treat others the same as you would want them to treat you
 - Work hard to understand how ones actions affect the feelings of others
 - Be sure to communicate to teachers, staff and administrators if someone is making you feel uncomfortable, unsafe, or upset
 - NO TOLERANCE for bully behavior, harassment, threats or violence
 - Stewardship: respect property and the environment
 - Students are responsible stewards of the building, the playground, the community, earth and its resources
 - Students will NOT litter, mark up, mess up or break property
 - None of the students have the right to take, touch or damage other people's property without permission from the owner
 - Take ownership in the building and partnership in becoming a community of lifelong learners.

- What are the responsibilities of the adults who work here? The responsibilities of the adults are to meet the needs of the individual student in accordance to the Common Core State Standards (CCSS) (academically, mentally, physically and socially) within a safe and nurturing environment. In addition, the teachers, staff, and parent resource members involved must share in the responsibility for maintaining the best possible school environment. To ensure safety and success at school, we ask parents make sure:
 - To reinforce the expectations for Richmond Avenue School students (see the previous section).
 - Child/Children arrive(s) at school on time (8:15a.m.).
 - Child/Children depart(s) school on time (2:45p.m. unless participating in supervised after school activities).
 - Child/Children arrive(s) at school having enough rest.
 - Child/Children has a routine time and quiet place for doing homework. Finally, it is important for parents to provide the school with current home, work, cellular and emergency phone numbers

- How important are collaborations and partnerships? Participants in education are students, parents, teachers, staff members, and administrators. Collaboration is the reciprocal partnerships between participants who share mutual goals that benefit all students, the school and with each other. Teachers collaboration with colleagues, students, and the parents to plan and sustain a safe environment where students work together collaboratively and productively. The importance of student-teacher, parent-teacher, teacher-teacher, and school administrator support promotes student achievement. The student-teacher collaboration and partnership allows teachers to develop their professional knowledge about their students' needs and abilities. The parent-teacher collaboration and partnership supports the child's well being and helps them to value their learning. In addition, teachers interact with families to communicate their values, skills, and unique knowledge that allow them to feel welcomed into the classroom. Teacher-teacher collaboration and partnership enables teachers to encounter new ideas for grade level team members and encourage differentiated teaching practices. In addition, the partnerships build integrated curriculum to enhance student learning by making meaningful connections using "backward planning" and being mindful of students' equity, diversity, and social and emotional development. Educators work together to help students reach their full potential by inquiring about their learning, resulting in the teachers' deepened understanding about how they learn. Finally, school administrator support establishes the platform that focuses on student learning as well as promote supportive environment, foster reflection and encourage risk-taking experiences. In turn, a focus on professional development for staff at knowledge and skills in areas concerning communication with students and parents, recognizing the needs of students and accessing appropriate support for them builds a partnership between student, teacher, parent and school administrator.

- How are we committed to continuous improvement? Through on-site and in-district Professional Learning Communities (PLCs) and on-going Professional Development; we, as educators, are life-long learners. To be committed, we develop a sense of understanding of theory and research-based "best practice" in order to improve the findings of effective strategies that will enable us to better meet the needs of the individual learners.

What is the school's mission statement?	The mission of <u>Richmond Avenue School</u> is to promote the development of all students academically, physically and emotionally. We are preparing students to be able to function and compete in the Twenty-First Century. Our diverse environment develops a positive respect for our student body and community. Students will demonstrate respect for others, maintain good citizenship, and strive for EXCELLENCE .
--	---

24 CFR § 200.26(c): Core Elements of a Schoolwide Program (Evaluation). *A school operating a schoolwide program must—(1) Annually evaluate the implementation of, and results achieved by, the schoolwide program, using data from the State's annual assessments and other indicators of academic achievement;(2) Determine whether the schoolwide program has been effective in increasing the achievement of students in meeting the State's academic standards, particularly for those students who had been furthest from achieving the standards; and(3) Revise the plan, as necessary, based on the results of the evaluation, to ensure continuous improvement of students in the schoolwide program*

Evaluation of 2014-2015 Schoolwide Program

(For schools approved to operate a schoolwide program prior to 2014-2015, or earlier)

1. Did the school implement the program as planned?

The Literacy Collaborative framework was implemented as planned. New teachers attended initial training twice a month with trained literacy coordinators. To further support new teachers, they received continuous support in their classroom with a trained literacy coordinator as well as monthly principal meetings and monthly grade level meetings to dig deeper into the resources to enhance teaching and address individual student needs within their classroom. Leveled Literacy Instruction (LLI) in grades K-4 was implemented by trained Reading Recovery (RR) and/or Basic Skills Instruction teachers. Reading Recovery and LLI in grades K-4 were implemented as planned to serve the lowest 20-30% of the student population.

2. What were the strengths of the implementation process?

Teachers met monthly at grade level meetings as well as principal meetings for continuous professional development in the theory of “best practice”. The Literacy Collaborative framework was supported with interventions; i.e. Leveled Literacy Instruction (LLI), System 44, Reading Recovery (RR). As a result, student growth was evident in the areas of reading and writing. These indicators were analyzed on a Portfolio Progress Monitoring Class Checklist (PPMCC) for grades K-8.

3. What implementation challenges and barriers did the school encounter?

A challenge during the implementation process was the limited number of staff members to effectively implement Leveled Literacy Intervention for the primary and intermediate grade levels. The selection process for Reading Recovery was based on a random computerized selection process based on the current date. In addition, due to increased class sizes, our basic skills and intervention

teachers were placed in classrooms to support classroom teachers in guided reading. Yet, we were not able to meet the needs of all grade levels with the limited number of certified staff members. In the 2014-2015 school year, we were limited to LLI groups in K-4th grades. In addition, program implementation challenges arose due to staff attendance. Some barriers of implementation were the limited assistance of a mathematics coach. In turn, it forced teachers to articulate with each other more often around the concerns of the “new” math series. Another barrier was the limited amount of time available for the intermediate literacy coordinator to effectively coach other teachers due to the schedule conflicts (block schedule). Block scheduling forced teachers to reduce time within their workshops to accommodate the schedule that in turn affects students’ performance growth.

4. What were the apparent strengths and weaknesses of each step during the program(s) implementation?

The apparent strengths during the program implementation were that a trained intermediate literacy coordinator completed her push-in of 3.0 hours with a new teacher and 1.0 hour with a substitute teacher who implemented the literacy framework under the guidance and mentor-ship of a coach. In the primary grades, a trained primary literacy coordinator pushed into a classroom for 1.0 hour each day to assist a newer 1st grade teacher with guided reading. The primary literacy coach worked with teachers on a daily basis to discuss their lesson, observe the lesson, and then provide feedback based on best practices. In addition, new teachers attended initial training consistently and were supported continuously during the school year. An apparent weakness of program implementation was the block-scheduling model that affected proper implementation of the literacy framework; i.e. time spans were shorter.

5. How did the school obtain the necessary buy-in from all stakeholders to implement the programs?

The school obtained the necessary buy-in from all stakeholders in order to implement the program(s) with several parent involvement sessions in the Parent Resource Center (September-May) delivered by a district trained literacy coordinator. In addition, parental involvement sessions were conducted in the Parent Resource Center; i.e. ESL, home-school connection, computer, nutrition, and citizenship classes. Throughout the school year, Richmond Avenue School held several family events during/after school for the whole family to attend; i.e. STEM Science Fair, Parent Science Night in partnership with Parent Resource Center, Back to School Night, holiday show, movie nights, award ceremonies, literature around the world, NJASK pep rally, etc. Finally, teacher-parent conferences were held in November to discuss student progress and continuous contact was made with parents through the guidance department as well as through the I&RS process and teacher quarterly conferences.

6. What were the perceptions of the staff? What tool(s) did the school use to measure the staff's perceptions?

	Very Important	Somewhat Important	Neither Important nor Unimportant	Somewhat Unimportant	Very Unimportant	Total
Curriculum and instruction	96.30% 26	0.00% 0	0.00% 0	0.00% 0	3.70% 1	27

8. What were the methods of delivery for each program (i.e. one-on-one, group session, etc.)

Program/Intervention	Method of Delivery	Grade Level(s)
Literacy Collaborative Framework	Small/Whole Group Sessions	K-8th
Reading Recovery	One-on-One	1st
Leveled Literacy Intervention	Small Group Sessions	K- 4th
System 44	Small Group Sessions	3 rd - 5th
English as a Second Language (ESL)	Small/Whole Group Sessions	K-8th
Achieve 3000	Whole Group Sessions	6 th -8 th
Title 1 & Title III After School Academy	Whole Group Sessions	PreK - 8th
Supplemental Educational Services (SES)	Small Group Sessions	2nd - 3rd

9. How did the school structure the interventions?

Program/Intervention	Method of Delivery	Grade Level(s)	Structure of Intervention
Literacy Collaborative Framework	Small/Whole Group Session	K-8	In-class
Reading Recovery	One-on-One	1st	Pull-Out/ Results based on reading assessment; i.e. benchmark
Leveled Literacy Intervention	Small Group Sessions	K-4th	Pull-Out/Results based on reading assessment; i.e. benchmark
System 44	Small Group Session	3 rd - 5th	Pull-Out/Results based on SRI and Schlagal & Slosson
English as a Second Language (ESL)	Small/Whole Group Sessions	K-8th	WIDA/Inclusion
Achieve 3000	Whole Group Sessions	6 th -8 th	In-Class
Title 1 & Title III After School Academy	Whole Group Sessions	PreK - 8th	After School - 3x per week
Supplemental Educational Services (SES)	Small Group Sessions	2nd - 3rd	After School/Results based on reading assessment; i.e. benchmark

10. How frequently did students receive instructional interventions?

Intervention	Method of Delivery	Grade Levels	Frequency of Instruction
Reading Recovery	One-on-One	1 st	Daily
Leveled Literacy Intervention	Small Group Sessions	K-4th	Daily
System 44	Small Group Sessions	3 rd	Daily
English as a Second Language (ESL)	Small/Whole Group Sessions	K-8	Daily
Achieve 3000	Whole Group Sessions	6 th -8 th	Daily
Title 1 & Title III After School Academy	Whole Group Sessions	PreK - 8th	After School - 3x per week
Supplemental Educational Services (SES)	Small Group Sessions	2nd - 3rd	After School- 3x per week

11. What technologies did the school use to support the program?

Program/Intervention	Method of Delivery	Grade Level(s)	Frequency of Instruction	Technology
Literacy Collaborative Framework	Small/Whole Group Sessions	K-8th	Daily	Mimio View/Mimio Smartboard/Computer/Ladybug/Google Docs
Reading Recovery	One-on-One	1 st	Daily	N/A
Leveled Literacy Intervention	Small Group Sessions	K-4th	Daily	N/A
System 44	Small Group Sessions	3 rd - 5th	Daily	Computer
Read 180	Small Group Sessions	5 th -6 th	Daily	Computer/Mimio Smartboard
English as a Second Language (ESL)	Small/Whole Group Sessions	K-8th	Daily	Mimio View/Computer
Achieve 3000	Whole Group Sessions	6 th -8 th	Daily	Computer
Title 1 & Title III After School Academy	Whole Group Sessions	PreK - 8th	3x per week	Mimio View/ Mimio Smartboard/Computer/Ladybug
Supplemental Educational Services (SES)	Small Group Sessions	2nd- 3rd	3x per week	N/A

12. Did the technology contribute to the success of the program, and if so, how?

Program/Intervention	Method of Delivery	Grade Level(s)	Frequency of Instruction	Technology	Success of Program
Literacy Collaborative Framework	Small/Whole Group Sessions	K-8	Daily	Mimio View/Mimio Smartboard/Computer/Ladybug/Google Docs	No-not required;Used to enhance instruction
Reading Recovery	One-on-One	1st	Daily	N/A	N/A
Leveled Literacy Intervention	Small Group Sessions	K-4th	Daily	N/A	N/A
System 44	Small Group Session	3 rd - 5th	Daily	Computer	Yes-student achievement reports/progress monitoring
English as a Second Language (ESL)	Small/Whole Group Sessions	K-8	Daily	Mimio View/Computer	No-not required Used to enhance instruction
Achieve 3000	Whole Group Sessions	6 th -8 th	Daily	Computer	Yes- student achievement reports/progress monitoring
Title 1 & Title III After School Academy	Whole Group Sessions	PreK- 8th	After School- 3x per week	Mimio View/ Mimio Smartboard/ Computer/ Ladybug	No - not required Used to enhance instruction
Supplemental Educational Services (SES)	Small Group Sessions	2nd - 3rd	After School- 3x per week	N/A	N/A

Evaluation of 2014-2015 Student Performance

State Assessments-Partially Proficient

Provide the number of students at each grade level listed below who scored partially proficient on state assessments for two years or more in English Language Arts and Mathematics, and the interventions the students received.

English Language Arts	2012-2013	2013-2014	2014-2015	Interventions Provided	Describe why the interventions <u>did</u> or <u>did not</u> result in proficiency.
Grade 4	14	27	29	Literacy Collaborative, Basic Skills Instruction, Level Literacy Instruction, System 44, Rigby Language Development, Special Education Services, ESL/Title III services, Extended School day, Summer School	Flexible grouping, differentiation of instruction and BSI helped the learners achieve success. The students that didn't pass are working below grade level, language acquisition, parents aren't always able to assist their children in the learning process; however, portfolio assessments show growth over time in both reading and writing. Intermediate grade levels had limited months of intervention instruction (January-June) for System 44 (4 th grade) and Read 180 (6 th grade). Intermediate grade levels were able to service LLI Red after school for 2-groups (5 th /6 th grades).
Grade 5	12	24	41	Literacy Collaborative, Basic Skills Instruction, Level Literacy Instruction, System 44, Rigby Language Development, Special Education services, ESL/Title III services, Extended School day, Summer School	Flexible grouping, differentiation of instruction and BSI helped the learners achieve success. The students that didn't pass are working below grade level, language acquisition, parents aren't always able to assist their children in the learning process; however, portfolio assessments show growth over time in both reading and writing. Intermediate grade levels had limited months of intervention instruction (January-June) for System 44 (4 th grade) and Read 180 (6 th grade). Intermediate grade levels were able to service LLI Red after school for 2-groups (5 th /6 th grades).
Grade 6	10	15	28	Literacy Collaborative, Basic Skills Instruction, Level Literacy Instruction, Rigby Language Development, Special Education services, ESL/Title III services, Extended School day, Summer School	Flexible grouping, differentiation of instruction and BSI helped the learners achieve success. The students that didn't pass are working below grade level, language acquisition, parents aren't always able to assist their children in the learning process; however, portfolio assessments show growth over time in both reading and writing. Intermediate grade levels had limited months of intervention instruction (January-June) for System 44 (4 th grade) and Read 180 (6 th grade). Intermediate grade levels were able to service LLI Red after school for 2-groups (5 th /6 th grades).
Grade 7	N/A	13	27	Literacy Collaborative, Basic Skills Instruction, Rigby Language Development, Special Education services, ESL/Title III services, Extended School day, Summer School	Flexible grouping, differentiation of instruction and BSI helped the learners achieve success. The students that didn't pass are working below grade level, language acquisition, parents aren't always able to assist their children in the learning process; however, portfolio assessments show growth over time in both reading and writing.
Grade 8	N/A	12	8	Literacy Collaborative, Basic Skills Instruction, Rigby Language Development, Special Education services, ESL/Title III services, Extended School day, Summer School	Flexible grouping, differentiation of instruction and BSI helped the learners achieve success. The students that didn't pass are working below grade level, language acquisition, parents aren't always able to assist their children in the learning process; however, portfolio assessments show growth over time in both reading and writing.

Mathematics	2012-2013	2013-2014	2014-2015	Interventions Provided	Describe why the interventions <u>did</u> or <u>did not</u> result in proficiency.
Grade 4	8	17	20	5-E Mathematical program, Special Education services, Extended school day, and Summer School	Flexible grouping, differentiation of instruction and BSI helped the learners achieve success. The students that didn't pass are working below grade level, language acquisition; however, ELA and Math benchmark assessments show growth over time
Grade 5	6	21	25	5-E Mathematical program, Special Education services, Extended school day, and Summer School	Flexible grouping, differentiation of instruction and BSI helped the learners achieve success. The students that didn't pass are working below grade level, language acquisition; however, ELA and Math benchmark assessments show growth over time
Grade 6	4	3	14	5-E Mathematical program, Special Education services, Extended school day, and Summer School	Flexible grouping, differentiation of instruction and BSI helped the learners achieve success. The students that didn't pass are working below grade level, language acquisition; parents aren't always able to assist their children in the learning process; however, ELA and Math benchmark assessments show growth over time
Grade 7	N/A	7	23	5-E Mathematical program, Special Education services, Extended school day, and Summer School	Flexible grouping, differentiation of instruction and BSI helped the learners achieve success. The students that didn't pass are working below grade level, language acquisition; parents aren't always able to assist their children in the learning process; however, ELA and Math benchmark assessments show growth over time
Grade 8	N/A	9	16	5-E Mathematical program, Special Education services, Extended school day, and Summer School	Flexible grouping, differentiation of instruction and BSI helped the learners achieve success. The students that didn't pass are working below grade level, language acquisition; parents aren't always able to assist their children in the learning process; however, ELA and Math benchmark assessments show growth over time

Evaluation of 2014-2015 Student Performance
Non-Tested Grades – Alternative Assessments (Below Level)

Provide the number of students at each non-tested grade level listed below who performed below level on a standardized and/or developmentally appropriate assessment, and the interventions the students received.

English Language Arts	2012-2013	2013-2014	2014-2015	Interventions Provided	Describe why the interventions <i>did or did not</i> result in proficiency.
Pre-Kindergarten	N/A	N/A	N/A		
Kindergarten	49	27	29	Literacy Collaborative, Reading Recovery, Level Literacy Instruction, Rigby Language Development, Special Education services, ESL/Title III services, Extended School day, Summer School	Flexible grouping, differentiation of instruction and ESL support helped the learners achieve success. Students who perform below grade level have been retained, received LLI or RR, or struggle with language acquisition (ESL/POE), parents aren't always able to assist their children in the learning process; however, portfolio assessments show growth over time in both reading and writing.
Grade 1	45	58	49	Literacy Collaborative, Reading Recovery, Level Literacy Instruction, Rigby Language Development, Special Education services, ESL/Title III services, Extended School day, Summer School	Flexible grouping, differentiation of instruction and ESL support helped the learners achieve success. Students who perform below grade level have been retained, received LLI or RR, or struggle with language acquisition (ESL/POE), parents aren't always able to assist their children in the learning process; however, portfolio assessments show growth over time in both reading and writing.
Grade 2	48	45	47	Literacy Collaborative, Reading Recovery, Level Literacy Instruction, Rigby Language Development, Special Education services, ESL/Title III services, Extended School day, Summer School	Flexible grouping, differentiation of instruction and ESL support helped the learners achieve success. Students who perform below grade level have been retained, received LLI or RR, or struggle with language acquisition (ESL/POE), parents aren't always able to assist their children in the learning process; however, portfolio assessments show growth over time in both reading and writing.

Mathematics	2012-2013	2013-2014	2014-2015	Interventions Provided	Describe why the interventions provided <i>did or did not</i> result in proficiency.
Pre-Kindergarten					
Kindergarten	N/A	36	N/A	Small group instruction, ESL/Title III services, Extended School Day, Summer School	Flexible grouping, differentiation of instruction and ESL support helped the learners achieve success. Students who perform below grade level have been retained, or struggle with language acquisition (ESL/POE), or simple numerical operations

As a result, there was an increase of two (2) guided reading levels. PARCC																																																																
Leveled Literacy Instruction (LLI)	ELA-Grade 4	YES	Student Participation Attendance	Students that received Leveled Literacy Instruction (LLI) entered the intervention on a guided reading level J. After attending the after school program and receiving 3-days of LLI students’ guided reading levels increased on average of 3-guided reading levels: Level M PARCC																																																																

Evaluation of 2014-2015 Interventions and Strategies

Professional Development Implemented in 2014-2015

1 Strategy	2 Content/Group Focus	3 Effective Yes-No	4 Documentation of Effectiveness	5 Measurable Outcomes (outcomes must be quantifiable)
Grade Level Meetings	ELA Grades K-8	YES	ELA Coaching Sessions Administrative evaluations: Formal and Informal	Participation and implementation of instructional materials and strategies that addressed academic deficiencies in order to increase student achievement.
School-Wide Enhancement Committees	All Areas	YES	Participation	A school-wide culture was created that embodied the theme of "Failure is NOT an Option." Our goal for the school year was emphasized daily: F.I.E.S.T.A (Focusing on Important Educational Standards That All students can meet)
District-Wide In-Services	ELA/Principal Meetings Mathematics/ Principal Meetings	YES	Implementation of the literacy collaborative framework Fact Fluency Data Analysis Mathematics Benchmark Assessments	Through a book study, <u>Genre Study</u> , ELA coaching sessions, ELA/Mathematics principal's meetings, teachers and staff were encouraged to utilize the framework (ELA), fact fluency data analysis documents and ideas presented in workshops in specific educational venues to better meet the needs of the learners while increasing academic achievement.
Literacy Collaborative/ Coaching	Literacy	YES	Implementation and Coaching Sessions	Teachers received regularly scheduled coaching sessions both one-on-one and/or cluster coaching sessions from the Literacy Coordinators. The sessions were based on the needs of the teachers. Intermediate Literacy Coordinator completed year three of a 3-year training cycle 2014-2015.
Mathematics/Coaching	Mathematics	YES	Fact Fluency Data Analysis Mathematics Benchmark Assessments	Teachers were assisted in analyzing data in mathematics and to assist in problem solving to better understand the needs of students in specific grade levels through the fact fluency and benchmark data analysis sheets.
Differentiated Instruction Backward Planning Curriculum Mapping Role Definition	ELA/Mathematics	YES	Diagnose, Collaborate and Prescribe Readers Notebooks/Response Journals Units of Study Word Study Notebooks	Informal and Formal "Walk-Through(s) and "Evaluations" Readers Notebooks/Response Journals-Students were required to write at two (2) response to reading entries in the notebook each month. In addition, a suggested two (2) alternate responses were provided for students to extend their thinking around reading. The use of graphic organizers and response through venn diagrams were utilized to assist the organization of reading responses in notebook. In addition, students were

				<p>required to type their responses on “Google Docs”</p> <p>Units of Study-In writing workshop, students were engaged in writing a piece that was focused around a specific unit/genre.</p> <p>Word Study Notebooks-Students were required to be assessed on the minimum of seven (7) word study principles per marking period.</p>
<p>Differentiated Instruction</p> <p>Backward Planning</p> <p>Curriculum Mapping</p> <p>Role Definition</p>	<p>Students with Disabilities</p>	<p>YES</p>	<p>Participation and Implementation</p> <p>Readers Notebooks/Response Journals</p> <p>Units of Study</p> <p>Word Study Notebooks</p>	<p>Informal and Formal “Walk-Through(s) and “Evaluations”</p> <p>Readers Notebooks/Response Journals-Students were require to write at least two (2) response to reading entries in the notebook each month. In addition, a suggested two (2) alternate responses were provided for students to extend their thinking around reading. The use of graphic organizers and response through venn diagrams were utilized to assist the organization of reading responses in notebook. Family and Community Engagement Implemented in 2014-2015

1 Strategy	2 Content/Group Focus	3 Effective Yes-No	4 Documentation of Effectiveness	5 Measurable Outcomes (outcomes must be quantifiable)
Back to School Night	Parent Involvement	YES	Sign-In sheet	The Richmond Avenue School 2014-2015 Open House "Back to School Night" had 55% parental participation.
Programs to Assist Students Academically	Parent Workshops ELA Mathematics Test taking Strategies	YES	Sign-In sheet and participation	Workshops were offered at the district level and several parents took advantage of the classes/workshops.
Language Assistance for Parents	ELL	YES	Sign-In Sheets and participation	ESL classes were offered by the parent resource center at various locations/schools throughout the district. Several parents and community members took advantage of this program.
Workshops	Parent Resources Center	YES	Sign-In sheet and participation	Workshops (various topics) were offered at the district level and many parents took advantage of the classes/workshops.
Parent-Teacher Conferences	Academic Concerns & Behavior Concerns	YES	Sign-In sheet	Parents are very important to their child's success in school. A conference gives the parent and the teacher a chance to talk about the child's progress and work together to help the child be successful. Parent Teacher Conferences netted 100% parental turnout.
Communications	E-Chalk, Connect-Ed, School News Letter PTC School Flyers PAC Channel 2 District Website School Website	YES YES YES YES YES YES YES YES	Sign-In sheet	Parents were kept informed of school events, functions and concerns via the tools identified under the content area focused. The PAC at Richmond Avenue School held monthly meetings for the 2014-2015 school year.

Awards assemblies	Parental Involvement	YES	Participation	Parents are invited to attend quarterly awards assemblies honoring students that exhibit outstanding citizenship as well as students receiving honors for academic achievement.
Bridging the gap between home and school	Students with Disabilities	YES	Participation and sign-in sheet	Annual Harvest Parade Annual Thanksgiving Feast Special Olympics Parent Inclusion Workshop: Black History and Halloween Can Do (MCI)
N/A	Homeless/Migrant	N/A	N/A	N/A

Principal's Certification

The following certification must be made by the principal of the school. Note: Signatures must be kept on file at the school.

☐ I certify that the school's stakeholder/schoolwide committee conducted and completed the required Title I schoolwide evaluation as required for the completion of this Title I Schoolwide Plan. Per this evaluation, I concur with the information herein, including the identification of all programs and activities that were funded by Title I, Part A.

Principal's Name

Principal's Signature

Date

ESEA §1114(b)(1)(A): “A comprehensive needs assessment of the entire school (including taking into account the needs of migratory children . . . that is based on information which includes the achievement of children in relation to the State academic content standards and the State student academic achievement standards . . .

2015-2016 Needs Assessment Process Data Collection and Analysis

The mathematics data collected from various assessments tools provided the instructional community the information needed to determine the progress or lack of progress in each student. Analyzing the data was the driving force in meeting the needs of our students.

Family and Community Engagement	Student/Parent School Compact School Parental Policy Open House Awards Assemblies Parent Teacher Conferences Oktoberfest Parade Winter Festival Mother's Day Tea Parent Resource Center	<p>Willing parents sit on the schoolwide improvement committee and take part in creating the school compact documentation as well as the School Parental Policy; every parent signs off in agreement with both the school compact letter and parental policy.</p> <p>55% of our parents attended the 2014-2015 Open House</p> <p>Parent Teacher Conferences were 100% attended. Parents must come in to the school and meet with the teacher in order to receive the students' report card for the first marking period.</p> <p>Awards Assemblies highlight the accomplishments of our students quarterly; parents are welcomed to attend.</p> <p>The Parent Resource offered classes daily, weekly, and monthly which assisted families with language development (ESL), computer skills, parental assistance, citizenship certification, and family organization to function effectively at home.</p>
Professional Development	Grade level meetings School-wide Enhancement Committees Literacy Collaborative Coaching Mathematics Facilitating District-wide In-Services Best Practices 3 rd edition Role Definition Differentiated Instruction Book Study: <u>Genre Study</u>	<p>Grade level meetings are scheduled monthly to analyze data in order to drive instruction.</p> <p>Schoolwide Committee meetings are held monthly with an emphasis on student achievement.</p> <p>Based on the evaluations, reflections and dialogue of the staff it appeared that the professional development offered by the Atlantic City School District and Richmond Avenue School highlighted various topics on education and related services (i.e. Progress Monitoring Benchmark Assessments (e-PASK), Analysis of Pupil Progress Monitoring and Checklist (PPMCC)) were well-received.</p> <p>The staff of Richmond Avenue School took part in a book study; chapters were assigned to all staff be read throughout the year and then discussed during Principal's Meetings based on literacy. The goal was to use the current research and theories in order to see how it would fit into our vision as a school and to help the staff strengthen their common language around student achievement and literacy.</p> <p>Teachers received regularly scheduled coaching sessions in Literacy. The sessions were based on the needs of the teachers. Intermediate coach completed her final year in her 3-year cycle training during the 2014-2015 school year.</p>

2014-2015 Needs Assessment Process

Narrative

1. What process did the school use to conduct its needs assessment?

The process of collecting, reviewing and gathering information from all of the stakeholders pertinent to the needs assessment of our school involves the following: Administrative meetings, faculty meetings, grade-level meetings, school improvement (NCLB) committee meetings, PAC, School-wide Enhancement Committees, test results, LAL and Mathematics portfolios, surveys: staff, parents and students conducted by: Management and Evaluation Associates, Inc., staff evaluations, Administrative walk through(s), professional improvement plans and I & RS.

- **Calculations are based on Spring 2014 state assessments results (baseline), and the determination of six performance targets (goals) beginning with the 2014-2015 school year, as documented in the approved New Jersey ESEA Waiver.**

2. What process did the school used to collect and compile data for student subgroups?

All data collected is disaggregated to highlight specific subgroups. The data is compiled by charting the results of both assessments: NJASK3-6 under the guidance and assistance of Management and Evaluation Associates, Inc. of Hightstown, NJ.

3. How does the school ensure that the data used in the needs assessment is valid and reliable?

Validity and reliability for each of the needs assessment data sources is as follows: state and local end of year assessment tests – standard validity and reliability is established by the test publishers; benchmark assessment tests – standard validity and reliability for selected test items is established by the publishers; surveys – standard validity and reliability is established by the survey publishers; face and content validity apply to all other data sources identified above.

4. What did the data analysis reveal regarding classroom instruction?

The data revealed the need to continue with the implementation of an effective inclusion program within the Special Education Program that allows for the students within the program to be educated in the “least restrictive environment.” The second language learners are still in need of “extra” support for language acquisition.

5. What did the data analysis reveal regarding professional development implemented in the previous year(s)?

In 2014-2015 the Professional Development team surveyed the staff at Richmond Avenue School to generate ideas on areas that they felt they needed support and training. From this survey the team compiled a Professional Development platform that was specific to the needs of the teachers to help increase their knowledge and instructional practices that would allow them to better meet the needs of our students.

The Professional Development Plan for 2014-2015 was initiated by the staff and related to the specific needs of our student population; therefore, the participation of the staff was high.

6. How does the school identify its educationally at-risk students in a timely manner?

Possible at-risk students are identified early due in part to the on-going monthly assessments assigned by the district. There are several assessments given during the first month of school that allow a teacher to identify a student in possible need of interventions (i.e. extra assistance, additional teaching tools, differentiated instruction). The assessments used during the first month of school are: Math Pre-test, Letter ID, Name reading and Writing, Observation Survey, Hearing and Recording Sounds in Words, High Frequency Words Test (Reading), High Frequency Word test (Spelling), SRI, Slosson, Schlagal, Predictive and Diagnostic Math Benchmark, Fact Math Fluency, Book Reading Progress Level, Word and Phonics Analysis, and Focused Writing Benchmark. Once a student has been identified as at-risk, he or she is brought before the I&RS committee, where all of the concerns are addressed in a professional and timely manner. Based on the information provided by the classroom teacher, parent(s) and assessment results the team then suggests the best possible interventions for that particular student and a follow-up meeting is scheduled in six to eight weeks to monitor the students' progress. Interventions used may include the following: Reading Intervention- (Kindergarten), Reading Recovery (Grade 1), Leveled Literacy Intervention (Grades K-6), Basic Skills Intervention (All grades), System 44, and the After School Enrichment Program (All grades).

7. How does the school provide effective assistance to its educationally at-risk students?

Once a student has been identified as at-risk, he or she is brought before the I&RS committee, where all of the concerns are addressed in a professional and timely manner. Based on the information provided by the classroom teacher, parent(s) and assessment results the team then suggests the best possible interventions for that particular student and a follow-up meeting would be scheduled in six to eight weeks to monitor the students' progress. Interventions used may include the following: Reading Recovery (Grade 1), Leveled Literacy Intervention (Grades K-6), Basic Skills Intervention (All grades), System 44, and the After School Enrichment Program (All grades).

8. How does the school address the needs of its migrant students?

The school addresses the needs of its migrant students through the identification process (migrant status) and support emotionally, socially, and economically.

9. How does the school address the needs of its homeless students?

District level will provide transportation and refer family to the parent resource center for additional assistance.

10. How does the school engage its teachers in decisions regarding the use of academic assessments to provide information on and improve the instructional program?

The ACPS utilizes a school-based data review team model, School Improvement/School Leadership/Data Teams (DIRT), for the systematic review of achievement and non-achievement data for school improvement purposes. In addition to team meetings, the model utilizes grade level meetings to ensure the review of data to drive classroom instruction by all instructional staff. The teachers were part of scheduled grade level meetings that discussed the use of academic assessments to provide information on and improvement of the instructional programs.

11. How does the school help its student's transition from preschool to kindergarten, elementary to middle school and/or middle to high school?

The District provides information to parents via parent centers, schools, media, community providers and collaborations.

1. Early Registration for preschool begins in March and is on-going throughout the school year. Registration continues during the summer.
2. Preschool Parent (Guardian)/Child Orientation is held during the summer in the respective schools. An invitational letter is sent to each parent/guardian to bring the child to orientation. Special events are an important part of orientation. (Examples of activities: Preschool and Kindergarten Breakfast, Preschool Kindergarten Tea Party, Preschool and Kindergarten Orientation Games)
3. *"Meet the Preschool and Kindergarten Teachers Day Forums"* - During the months of October and May, preschool and kindergarten teachers (including special needs preschool) present a forum and parents (guardians) have the opportunity to meet and discuss Early Childhood Education in Atlantic City Schools. Early Childhood Education staff has the opportunity to meet preschool parent/guardians and answer questions about the preschool program.
5. *"My Trip to the Kindergarten School Day"* – During the month of May, students and parents/guardians come to school, meet the principal, assistant principal and teachers. Students will participate in a Kindergarten classroom activity.
6. Fliers announcing preschool /early registration are disseminated during report card periods.
7. Preschool teachers give parents and guardians tips for preparing their children for kindergarten.
8. The Atlantic City Schools, Early Childhood Program Community Committee meets four times a year to discuss (high quality preschool and kindergarten) curricula, community resources and preschool transition.
9. Preschool student needs are identified and student portfolios are sent to kindergarten teacher.
10. Parent/guardian workshops are given by the District Supervisor of Early Childhood Education, preschool/kindergarten teachers and Parent Resource Centers staff.
11. The preschool curriculum is a prerequisite to and aligned to the kindergarten curriculum. Preschool students making the transition have prior background knowledge for what will be taught in kindergarten.
12. Kindergarten teachers call and/or write letters to parents (guardians) and children before school begins in September.
13. During the school year there is an open house for kindergarten parents.
14. There is strong communication with elementary principals and the preschool program in Atlantic City Schools. A team of early childhood education staff are instrumental in providing transitional activities during the school year.
15. High quality classrooms are provided in preschool and kindergarten.
16. There is strong communication and collaboration with the home, community and school.
17. Questionnaires are sent to parents/guardians about their children, prior to entering kindergarten.

12. How did the school select the priority problems and root causes for the 2015-2016 schoolwide plan?

The selection of school priority problems and root causes for the 2015-2016 schoolwide plan was conducted by a school-based team, led by the Principal, following district wide meetings led by the Superintendent, central office administrators and M & E. District and State assessments, surveys and concerns were generated collaboratively at the school-wide improvement meetings and used during meetings for to select priority problems.

2014-2015 Needs Assessment Process

Description of Priority Problems and Interventions to Address Them

Based upon the school's needs assessment, select at least three priority problems that will be addressed in this plan. Complete the information below for each priority problem.

	#1	#2																																																																																																														
Name of priority problem	Language Arts Literacy	Mathematics																																																																																																														
Describe the priority problem using at least two data sources	<div style="background-color: #003366; color: white; text-align: center; padding: 2px; font-weight: bold;">NCLB Progress Targets - Language Arts Literacy</div> <p>This table presents the Progress Targets as uniquely calculated for each subgroup in each school under NJDOE's NCLB waiver. Name of scientifically research based intervention to address priority problems	<p>Literacy Collaborative is a researched based instructional model that is language based, student-centered, process-oriented. The Literacy Collaborative instructional model includes systematic teaching of the essential components of reading, writing, speaking, listening, and language development as outlined in the Common Core State Standards. Teachers will continue to teach the components of the framework; Reading and Writing Workshop as well as a Language/Word Study block. The literacy model allows for student centered differentiated instruction. (Leveled Literacy Intervention, System 44)</p> <p>LLI is a small-group, supplementary literacy intervention designed to help teachers provide powerful, daily, small-group</p>	<p>Big Ideas,” describe what needs to be taught for each grade level. The 5E instructional mathematics model provides a format for lessons that builds on what students already know. The 5E’s sequence the learning experience so that learners construct their understanding of a concept across time. Each phase of the learning sequence can be described using five words that begin with “E”: engage, explore, explain, extend, and evaluate; this model is used for all five of the Common Core State Standards (CCSS). The results of the pre and post math benchmarks warrant differentiated instruction.</p>																																																																																																														

	instruction for the lowest achieving students at their grade level. Through systematically designed lessons and original, engaging leveled books, <i>LLI</i> supports learning in both reading and writing, helps students expand their knowledge of language and words and how they work. The goal of <i>LLI</i> is to bring students to grade level achievement in reading.	
How does the intervention align with the Common Core State Standards?	<p><u>The Literacy Collaborative language and literacy framework</u> has been aligned with the Common Core State Standards. The model addresses the essential components of reading instruction as described in the National Reading Panel report and the No Child Left Behind Act: phonemic awareness, phonics instruction, fluency instruction, vocabulary instruction, and comprehension instruction.</p> <p>LLI will support what is being taught in the core classroom and help to meet the Common Core State Standards by bringing struggling readers to grade level proficiency. At the end of each LLI lesson, the specific behaviors and understandings that are required for children to read successfully at that level are provided from <i>The Continuum of Literacy Learning</i> in alignment with the Common Core State Standards</p>	<p>The design of the 5E math model and “Big Ideas,” is aligned to the CCCS.</p> <p>Research reports from institutions such as the National Research Center support the effectiveness of the 5E model.</p>

2014-2015 Needs Assessment Process **Description of Priority Problems and Interventions to Address Them (continued)**

Describe the root causes of the problem	A majority of our parents are without personal modes of transportation, thus preventing them from being actively involved in all of the school/family activities. Also, varying work hours plays a big role in parent availability.

Name of scientifically research based intervention to address priority problems	Research on the effects of parental involvement has shown a consistent, positive relationship between parents' engagement in their children's education and student outcomes. Studies have also shown that parental involvement is associated with student outcomes such as lower dropout and truancy rates. Monthly parental involvement workshop are offered and will continue to be offered through the parent resource center in order to educate parents to become effective learners in order to assist their children at home with school work. This opportunity will enable parents to “mirror” the practice of learning at home to better assist children in school.	<p>Literacy Collaborative is a researched based instructional model that is language based, student-centered, process-oriented. The Literacy Collaborative instructional model includes systematic teaching of the essential components of reading, writing, speaking, listening, and language development as outlined in the Common Core State Standards. Teachers will continue to teach the components of the framework; Reading and Writing Workshop as well as a Language/Word Study block. The literacy model allows for student centered differentiated instruction. (Leveled Literacy Intervention, System 44)</p> <p>LLI is a small-group, supplementary literacy intervention designed to help teachers provide powerful, daily, small-group instruction for the lowest achieving students at their grade level. Through systematically designed lessons and original, engaging leveled books, <i>LLI</i> supports learning in both reading and writing, helps students expand their knowledge of language and words and how they work. The goal of <i>LLI</i> is to bring students to grade level achievement in reading.</p>																				

		<p>Big Ideas,” describe what needs to be taught for each grade level. The 5E instructional mathematics model provides a format for lessons that builds on what students already know. The 5E’s sequence the learning experience so that learners construct their understanding of a concept across time. Each phase of the learning sequence can be described using five words that begin with “E”: engage, explore, explain, extend, and evaluate; this model is used for all five of the Common Core State Standards (CCSS). The results of the pre and post math benchmarks warrant differentiated instruction.</p>
How does the intervention align with the Common Core State Standards?	N/A	<p><u>The Literacy Collaborative language and literacy framework</u> has been aligned with the Common Core State Standards. The model addresses the essential components of reading instruction as described in the National Reading Panel report and the No Child Left Behind Act: phonemic awareness, phonics instruction, fluency instruction, vocabulary instruction, and comprehension instruction.</p> <p>LLI will support what is being taught in the core classroom and help to meet the Common Core State Standards by bringing struggling readers to grade level proficiency. At the end of each LLI lesson, the specific behaviors and understandings that are required for children to read successfully at that level are provided from <i>The Continuum of Literacy Learning</i> in alignment with the Common Core State Standards</p> <p>The design of the 5E math model and “Big Ideas,” is aligned to the CCCS.</p> <p>Research reports from institutions such as the National Research Center support the effectiveness of the 5E model.</p>

ESEA §1114(b) Components of a Schoolwide Program: A schoolwide program shall include . . . schoolwide reform strategies . . . “

2014-2015 Interventions to Address Student Achievement

ESEA §1114(b)(1)(B) strengthen the core academic program in the school;

Name of Intervention	Content Area Focus	Target Population(s)	Person Responsible	Indicators of Success (Measurable Evaluation Outcomes)	Research Supporting Intervention (from IES Practice Guide or What Works Clearinghouse)
Literacy Collaborative Framework	Language Arts Literacy	Special Education and Limited English Speaking students in grades K-2, 3-5 and 6-8	Administration and Teachers	<p>Making AYP (Language Arts Literacy)</p> <p>Portfolio Assessment</p> <p>ePASK</p> <p>Model Curriculum/CCSS</p> <p>SRI</p> <p>Benchmark</p> <ul style="list-style-type: none"> ❖ System 44 ❖ LLI Intermediate 	<p>Literacy Collaborative is a researched based instructional model that is language based, student-centered, process-oriented. The Literacy Collaborative instructional model includes systematic teaching of the essential components of reading, writing, speaking, listening, and language development as outlined in the Common Core State Standards. The teachers will continue to teach the components of the framework; Reading and Writing Workshop as well as the Language/Word Study block. Literacy Collaborative has been studied by the Center for Research and Educational Policy at the University of Memphis, the Education Development Center in Newton, Massachusetts, and the Center for Education Evaluation and Policy at Indiana University.</p> <p>System 44 Next Generation puts students on the path to the Common Core, helping students master the foundational reading skills as defined by the Standards. <i>System 44</i> also aligns to many of the core ELA standards through explicit instruction in comprehension and writing.</p> <p>The Center for Research in Educational Policy (CREP) at the University of Memphis conducted a scientific study that assessed the efficacy of Leveled Literacy Intervention (LLI). The study confirmed that LLI was effective in significantly improving the literacy achievement of struggling readers and writers. LLI will support what is being taught in the core classroom and help to meet the Common Core State Standards by bringing struggling readers to grade level proficiency. At the end of each LLI lesson, the specific behaviors and understandings that are required for children to read successfully at that level are provided from <i>The Continuum of Literacy Learning</i>. Like the Common Core State Standards, <i>The Continuum</i> addresses the specific goals for helping students actively seek the wide, deep, and thoughtful engagement with high-quality literary and informational texts that builds knowledge, enlarges experience, and broadens worldviews.</p>

Mathematics 5E Model	Mathematics	Special Education and Limited English Speaking students in grades K-2, 3-5 and 6-8	Administration and Teachers	Making AYP (Mathematics) Mathematics pre/post benchmark Math Fact Fluency Assessments	<p>The math approach used is a standards-based eighty minute Mathematics block in Kindergarten through sixth grade, the students acquire the necessary mathematical concepts, skills and understanding that they need to be successful. We begin each mathematics lesson with “Big Ideas,” which describes what needs to be taught for each grade level. The 5E instructional mathematics model provides a format for lessons that builds on what students already know. The 5E’s sequence the learning experience so that learners construct their understanding of a concept across time. Each phase of the learning sequence can be described using five words that begin with “E”: engage, explore, explain, extend, and evaluate; this model is used for all five of the standards.</p> <p>The design of the “Big Ideas,” is aligned to the CCSS Research reports from institutions such as the National Research Center support the effectiveness of the 5E model.</p>

24 CFR § 200.26(c): Core Elements of a Schoolwide Program (Evaluation). *A school operating a schoolwide program must—(1) Annually evaluate the implementation of, and results achieved by, the schoolwide program, using data from the State's annual assessments and other indicators of academic achievement;(2) Determine whether the schoolwide program has been effective in increasing the achievement of students in meeting the State's academic standards, particularly for those students who had been furthest from achieving the standards; and(3) Revise the plan, as necessary, based on the results of the evaluation, to ensure continuous improvement of students in the schoolwide program.*

Evaluation of Schoolwide Program

(For schools approved to operate a schoolwide program beginning in the 2015-2016 school year)

All Title I schoolwide programs must conduct an annual evaluation to determine if the strategies in the schoolwide plan are achieving the planned outcomes and contributing to student achievement. Schools must evaluate the implementation of their schoolwide program and the outcomes of their schoolwide program.

1. Who will be responsible for evaluating the schoolwide program for 2015-2016? Will the review be conducted internally (by school staff), or externally?

The responsibility for evaluating the schoolwide program for 2015-2016 will be M and E Associates in conjunction with the School Improvement Plan Committee (School-Based Committee). The evaluation and review of the plan will begin in September 2015, including stakeholders, M and E Associates and the committee members on a bi-monthly basis. In addition, the School Leadership Team (Primary and Intermediate) will support the review and evaluation process of the schoolwide plan on a monthly basis.

2. What barriers or challenges does the school anticipate during the implementation process?

A challenge that is anticipated during the implementation process may be the limited number of staff members to effectively implement Leveled Literacy Intervention for the primary and intermediate grade levels. Due to the increase of class size, the utilization of basic skills and intervention teachers may be placed in classrooms to support classroom teachers in guided reading. Some barriers that are anticipated during the implementation process may be the limited assistance of a mathematics coach. This upcoming school year, a “new” math series will be implemented in grades K-4. In turn, it will force teachers to articulate with each other more often addressing the concerns of the “new” math series. Another barrier may be the limited amount of time available for the literacy and/or mathematics coordinator to effectively coach other teachers due to the schedule conflicts (block schedule). Block scheduling will force teachers to reduce time within their workshops to accommodate the schedule that in turn affects students’ performance growth.

3. How will the school obtain the necessary buy-in from all stakeholders to implement the program(s)?

The school will continue to obtain the necessary buy-in from all stakeholders in order to implement the program(s) with monthly parent involvement sessions in the Parent Resource Center (September-May) delivered by a district trained literacy coordinators:

Primary/Intermediate. In addition, parental involvement sessions will be conducted at the grade level (Curriculum Based Workshops) as well as the Parent Resource Center; i.e. ESL, home-school connection, computer, nutrition, and citizenship classes. Throughout the school year, Richmond Avenue School will continue to hold several family events during/after school for the whole family to attend; i.e. Science Fairs, Back to School Night, holiday show, movie night, award ceremonies, dinner show, PARCC pep rally, etc. Finally, teacher-parent conferences will be held in November to discuss student progress and continuous contact will be made with parents through the guidance department as well as through the I&RS process and teacher quarterly conferences.

4. What measurement tool(s) will the school use to gauge the perceptions of the staff?

The measurement tool that our school will utilize to gauge the perceptions of the staff will be LoTi® Digital Age Schools. Atlantic City Public Schools have experienced statistically significant gains in student achievement. Atlantic City Public School follow the LoTi® model and have experienced a shift from "somewhat performing" to "high performing" via the implementation of Digital Age Best Practices research.

5. What measurement tool(s) will the school use to gauge the perceptions of the community?

The measurement tool that our school will utilize to gauge the perceptions of the community will be LoTi® Digital Age Schools. Atlantic City Public Schools have experienced statistically significant gains in student achievement. Atlantic City Public School follow the LoTi® model and have experienced a shift from "somewhat performing" to "high performing" via the implementation of Digital Age Best Practices research.

6. How will the school structure interventions?

Program/Intervention	Method of Delivery	Grade Level(s)	Structure of Intervention
Literacy Collaborative Framework	Small/Whole Group Session	K-8	In-class
Reading Recovery	One-on-One	1st	Pull-Out/ Results based on reading assessment; i.e. benchmark
Leveled Literacy Intervention	Small Group Session	K-3 rd	Pull-Out/Results based on reading assessment; i.e. benchmark
System 44	Small Group Session	3 rd	Pull-Out/Results based on SRI and Schlagal & Slosson
English as a Second Language (ESL)	Small/Whole Group Sessions	K-8	WIDA/Inclusion
Achieve 3000/Team Biz	Whole Group Session	5th-8th	In-Class

7. How frequently will students receive instructional interventions?

Intervention	Method of Delivery	Grade Levels	Frequency of Instruction
Reading Recovery	One-on-One	1 st	Daily
Leveled Literacy Intervention	Small Group Session	K-3 rd	Daily
System 44	Small Group Session	3 rd	Daily
English as a Second Language (ESL)	Small/Whole Group Sessions	K-8	Daily
Achieve 3000/Team Biz	Whole Group Session	5th-8th	Daily

8. What resources/ technologies will the school use to support the schoolwide program?

Program/Intervention	Method of Delivery	Grade Level(s)	Frequency of Instruction	Technology
Literacy Collaborative Framework	Small/ Whole Group Session	K-8	Daily	Mimio View/Mimio Smartboard/Computer
Reading Recovery	One-on-One	1 st	Daily	N/A
Leveled Literacy Intervention	Small Group Session	K-3 rd	Daily	N/A
System 44	Small Group Session	3 rd	Daily	Computer
English as a Second Language (ESL)	Small/Whole Group Sessions	K-8	Daily	Mimio View/Computer
Achieve 3000/Team Biz	Whole Group Session	5th-8th	Daily	Computer

9. What quantitative data will the school use to measure the effectiveness of each intervention provided?

Program/Intervention	Method of Delivery	Grade Level(s)	Frequency of Instruction	Quantitative Data
Literacy Collaborative Framework	Small/Whole Group Session	K-8	Daily	Pupil Progress Monitoring Checklist (PPMCC)
Reading Recovery	One-on-One	1 st	Daily	Reading Assessments
Leveled Literacy Intervention	Small Group Session	K-3 rd	Daily	Reading Benchmark Assessments
System 44	Small Group Session	3 rd	Daily	SPI Reports Fall/Winter Schlagal SRI Reports
English as a Second Language (ESL)	Small/Whole Group Sessions	K-8	Daily	WIDA/ACCESS
Achieve 3000/Team Biz	Whole Group Session	5th-8th	Daily	ACHIEVE 3000 Progress Reports

10. How will the school disseminate the results of the schoolwide program evaluation to its stakeholder groups?

The school will disseminate the results of the schoolwide program evaluation to its stakeholder groups beginning in September. A scheduled informational session will be provided in order to disseminate the results of the schoolwide program evaluation. During this session, the school will address the strengths and weaknesses, barriers and challenges of implementation, as well as create a plan of action in order to monitor the results. In connection, the school will disseminate the results and address the needs, concerns, and accomplishments during the monthly Parent Resource Center workshops provided by the Parent Resource Center with partnership of the Richmond Avenue School Literacy Coordinators.

ESEA §1114 (b)(1)(F) Strategies to increase parental involvement in accordance . . . such as family literacy services

Research continues to demonstrate that successful schools have significant and sustained levels of family and community engagement. Therefore, it is important that schoolwide plans contain strategies to involve families and the community, especially in helping children do well in school. In addition, families and the community must be involved in the planning, implementation, and evaluation of the schoolwide program.

2014-2015 Family and Community Engagement Strategies to Address Student Achievement and Priority Problems

Name of Strategy	Content Area Focus	Target Population(s)	Person Responsible	Indicators of Success (Measurable Evaluation Outcomes)	Research Supporting Strategy (from IES Practice Guide or What Works Clearinghouse)
PAC	Academic Behavioral Social	Parents Teachers Students	PAC President and Principal	Participation	Research suggests that students tend to perform better in school when their parents are actively engaged in school related activities. Parents are very important to their child's success in school.
Parent Resource Center Workshops	Academic: Math and LAL	Parents Staff Students	Joe Beaman, Title One Coordinator	Participation in the district-wide workshops: <ul style="list-style-type: none"> ● Making Math Understandable ● De-mystifying the Standardized Test for Parents ● A Home for My Books ● How Do I engage My Children K-7 in Reading ● Building personal Home Libraries 	Research suggests that students tend to perform better in school when their parents are actively engaged in school related activities. Parents are very important to their child's success in school.

Community Cookouts	Social Behavioral	Students Parents Community	Stop the Silence Committee	Community participation and decrease in citywide crime	The cookouts, sponsored by Stop The Silence Committee, are meant to bring community organizations together with community members to assist in bringing public awareness to the criminal activity that plagues our immediate area and provide the residents with information that will assist them in curtailing the criminal activity in their neighborhood. Community involvement is as important as policing in the effort to prevent, control and stop crime.
Parent Resource Center	Family Assistance	Homeless Migrant	<p>Gabrielle Caldwell, District Supervisor Title 1</p> <p>Joe Beaman, Title One Coordinator</p>	<p>Distribution of the following:</p> <ul style="list-style-type: none"> ● School supplies ● Food ● Clothing ● Transportation for school related functions 	<p>By law, every New Jersey school district must have a local homeless liaison, who is responsible for assisting homeless students and their parents or guardians with such activities as:</p> <ul style="list-style-type: none"> ● Enrolling in school and accessing school services; ● Obtaining immunizations or medical records; ● Informing parents, school personnel, and others of the rights of homeless children and youth; ● Working with school staff to make sure that homeless children and youth are immediately enrolled in school pending resolution of disputes that might arise over school enrollment or placement; ● Helping to coordinate transportation services for homeless children and youth; and ● Collaborating and coordinating with the State Coordinator for the Education of Homeless Children and Youth and community and school personnel responsible for providing education and related support services to homeless children and Youth.

Parent Resource Center: Workshops	Educational Assistance	ELL	Gabrielle Caldwell, District Supervisor Title 1 Joe Beaman, Title One Coordinator	Participation in ELA/Mathematics workshops Participation in Parenting Workshops Participation in ESL Workshops	Research suggests that students tend to perform better in school when their parents are actively engaged in school related activities. Parents are very important to their child's success in school.
Parent Resource Center: Workshops	Educational Assistance	Students with Disabilities	Joe Beaman, Title One Coordinator	Participation in the following workshops: <ul style="list-style-type: none"> ● Asking the right questions ● Understanding your child's IEP ● Understanding ADHD ● Social Side of learning ● A Home for My Books 	Research suggests that students tend to perform better in school when their parents are actively engaged in school related activities. Parents are very important to their child's success in school.

2014-2015 Family and Community Engagement Narrative

1. How will the school's family and community engagement program help to address the priority problems identified in the needs assessment?
 - ❑ The school's family and community engagement program will assist with the understanding that all stakeholders are vital to the success of our shared vision. The school, parents and community work together in meeting the needs of our school and more specifically the learners.
2. How will the school engage parents in the development of the written parent involvement policy?
 - ❑ The school will conduct a survey seeking parent input
 - ❑ Invite parents to attend our PAC meetings
 - ❑ Continue to have parents sit on the schoolwide improvement committee
3. How will the school distribute its written parent involvement policy?
 - ❑ Send home two copies of the Parent Involvement Policy with every student
 - ❑ Have parent sign one of the copies
 - ❑ Return signed copy to school
 - ❑ Review content at the following gatherings: Open House, PAC and PTC's
4. How will the school engage parents in the development of the school-parent compact?
 - ❑ Conduct a parent survey seeking parent input
 - ❑ Develop the school-parent compact jointly with parents at the first PAC meeting
 - ❑ Create and make use of a "suggestion box," for parents to use throughout the school year for continued communication between parents and school.
 - ❑ Have teachers discuss the impact and importance of the compact with each parent at Open House and PTC's

5. How will the school ensure that parents receive and review the school-parent compact?
 - ❑ Distributing the school parent-compact during Open House, PTC's and to all new incoming families
 - ❑ Utilize the connect-ed system to remind parents that copies of the compact are available in the Main Office
6. How will the school report its student achievement data to families and the community?
 - ❑ The school will report student achievement data to the families and community by mailing home the information as well as addressing the topic during the time of our scheduled parent teacher conferences and PAC meetings.
7. How will the school use notify families and the community if the district has not met its annual measurable objectives for Title III?
 - ❑ Notices will be sent home to all parents to notifying them that the district has not met its annual measurable objectives for Title III. Also, the information will be announced at the Atlantic City Board of Education meeting in early Fall.
8. How will the school inform families and the community of the school's disaggregated assessment results?
 - ❑ The school will inform the families and community of the school's disaggregated assessments results through PAC and informing them of the district's scheduled Board of Education meeting, which will address the results as a district.
9. How will the school involve families and the community in the development of the Title I Schoolwide Plan?
 - ❑ Parents and Community will be invited to attend PAC meetings that will discuss the development of the Title I Schoolwide Plan and seek input at that time
10. How will the school inform families about the academic achievement of their child/children?
 - ❑ The parents are informed of their child/children's academic achievement during Parent Teacher Conferences.
11. On what specific strategies and programs did the school use its 2014-2015 parent involvement funds?
 - ❑ The parent involvement funds were used for various workshops.
12. On what specific strategies and programs will the school use its 2014-2015 parent involvement funds?
 - ❑ The funds for parent involvement will be used for various "based on needs," workshops.

ESEA §1114(b)(1)(E) Strategies to attract high-quality highly qualified teachers to high-need schools.

High poverty, low-performing schools are often staffed with disproportionately high numbers of teachers who are not highly qualified. To address this disproportionality, the ESEA requires that all teachers of core academic subjects and instructional paraprofessionals in a schoolwide program meet the qualifications required by section 1119. Student achievement increases in schools where teaching and learning have the highest priority, and students achieve at higher levels when taught by teachers who know their subject matter and are skilled in teaching it.

Strategies to Attract and Retain Highly-Qualified Staff

	Number & Percent	Description of Strategy to Retain HQ Staff
Teachers who meet the qualifications for HQT, consistent with Title II-A	55	On-Going Professional Development Human Resource Department_ Personnel File Evaluation
	100%	
Teachers who do not meet the qualifications for HQT, consistent with Title II-A	0%	
	100%	
Paraprofessionals who meet the qualifications required by ESEA (education, ParaPro test, portfolio assessment)	8	On-Going Professional Development Human Resource Department_ Personnel File Evaluation
	100%	
Paraprofessionals providing instructional assistance who do not meet the qualifications required by ESEA (education, ParaPro test, portfolio assessment)*	0%	
	0%	

* The district must assign these paraprofessionals to non-instructional duties for 100% of their schedule, reassign them to a school in the district that does not operate a Title I schoolwide program, or terminate their employment with the district.

Although recruiting and retaining highly qualified teachers is an on-going challenge in high poverty schools, low-performing students in these schools have a special need for excellent teachers. Therefore, the schoolwide plan must describe the strategies it will use to attract and retain highly-qualified teachers.

Description of strategies to attract highly-qualified teachers to high-need schools	Individuals Responsible
The Human Resource Department is responsible for the screening of all applicants to ensure that all employees (educators) are high-qualified.	Human Resource Department
